lusotufo Fast Rugs

Extreme Rugs

tapetes complexos feitos de alcatifa
alfombras complejas hechas de moquetas
complex rugs made from carpets

create your own rug extreme

Turn your ideas into reality with Lusotufo`s custom-made service!

Release your imagination and make your own rug!

Lusotufo offers you a rug customization service which is based on a wide range of types of materials and finishes, allowing you to customize your rug creating an unique and exclusive piece.

The limitations of the past with the designs of high complexity ceased to exist with the new CAD automatic cutting machine recently developed for Lusotufo. This system allows you within a few minutes to virtually develop any design and size with millimeter precision and absolute reproducibility.

See our catalogs where you can find various kinds of materials at your disposal, such as carpets and rugs in wool, polypropylene, polyamide, sisal and other materials that you can use as a base of your rug.

Please contact our dealer in the store nearest you for more information!

Check the examples on the next pages!

- Tapetes de Alcatifas
- Alfombras de Moquetas
- Rugs from Carpets

Transforme as suas ideias em realidade com o serviço **Custom-Made**

Liberte a sua imaginação e faça o seu tapete!

A LUSOTUFO disponibiliza-lhe um serviço de personalização de tapetes que tem por base a vasta gama de tipos de material e acabamentos, que lhe permitirão personalizar os seus tapetes, criando peças únicas e exclusivas.

As limitações do passado com os desenhos de elevada complexidade deixaram de existir com a nova máquina de corte automática CAD, recentemente desenvolvida para a LUSOTUFO. Este sistema, permite fazer em poucos minutos praticamente qualquer desenho e qualquer medida, com reprodutibilidade absoluta e precisão milimétrica.

Consulte os nossos catálogos, onde encontrará diversos tipos de materiais ao seu dispor, tais como tapetes e alcatifas em lã, polipropileno, poliamida, sisal e outros materiais que poderá usar como base do seu tapete.

Para mais informações, contacte o nosso revendedor na loja mais próxima de si!

Convierta sus ideas en realidad con el servicio **Custom-Made**

Dé rienda suelta a su imaginación y haga su alfombra!

LUSOTUFO le ofrece un servicio de personalización de alfombras que se basa en una amplia gama de tipos de texturas y acabados, que le permite personalizar sus alfombras, creando piezas únicas y exclusivas.

Las limitaciones del pasado con los diseños de alta complejidad dejaron de existir con la nueva máquina de corte automático de CAD, desarrollada recientemente para LUSOTUFO. PT

MANUTENÇÃO

Os tapetes numa fase inicial terão a tendência de libertar algum pelo, especialmente os que possuem lã na sua composição. Nestes casos deverão aspirar com alguma frequência, sobretudo nos 2 primeiros meses.
É também usual que apareçam pequenos fios à superfície do tapete, e para correção deste problema os fios deverão ser cortados e nunca puxados, pois ao fazê-lo poderá danificar o seu tapete. Esta situação é normal que aconteça e não reduz a qualidade ou durabilidade do tapete.
Para prolongar a durabilidade e manter a qualidade do seu tapete, recomenda-se que o tapete seja rodado de 6 em 6 meses para alterar os padrões de tráfego e distribuir uniformemente o desgaste em ambos os lados;
Evitar expor o tapete à luz ou calor intenso prevenindo assim o aparecimento de manchas;
Quando lavar o pavimento onde se encontra o tapete, deve ter o cuidado de o deixar secar devidamente, para evitar o aparecimento de bolores e o descolar do forro do tapete;
O tapete deverá ser guardado numa superfície plana, ou enrolado com o forro para fora, devendo-se juntar um produto anti-traça (ex.: naftalina) no caso de ser um tapete em lã;

LIMPEZA

Aspirar semanalmente (recomendado: 2 vezes), sempre no correr do pelo, dado que caso contrário, este tipo de procedimento poderá reduzir o brilho do tapete.
Nunca bater no tapete, porque pode quebrar a estrutura (trama) que o sustenta, podendo provocar rasgos ou deformações permanentes;
É fundamental ter atenção ao tipo de fibra que compõem o tapete e seguir sempre as instruções de lavagem especificadas na etiqueta;

É aconselhável anualmente recorrer a limpeza profissional.

REMOÇÃO DE MANCHAS

Se atuar de imediato, tem cerca de 90% de probabilidades de conseguir remover a nódoa. Para isso deverá seguir as seguintes etapas:
1º Atuar de imediato e remover os sólidos com a ajuda de uma faca ou no caso dos líquidos absorve-los com papel, esponja ou pano muito absorvente;
2º Trabalhar de fora para dentro, para restringir a nódoa;
3º Não molhar demasiado o tapete, pois pode danificá-lo irremediavelmente;
4º Não esfregar o local da nódoa.
Deve utilizar um detergente próprio para tapetes, com um PH Neutro

ES

MANTENIMIENTO

La alfombra, en una fase inicial, tiene la tendencia a liberar algún pelo, especialmente las que poseen lana en su composición. En estos casos, deberán aspirar frecuentemente, sobretodo los 2 primeros meses.
Es también habitual, que aparezcan pequeños hilos en la superficie de la alfombra, y para corregir este problema, los hilos deberán ser cortados y nunca estirados, pues si lo hiciese podría perjudicar su alfombra.
Para prolongar la vida de su alfombra, recomendamos que la alfombra sea girada 180 grados de 6 meses en 6 meses para cambiar el sentido del tráfico y distribuir uniformemente el desgaste en ambos lados.
Evitar exponer la alfombra a la luz o calor intenso, previniendo así la aparición de manchas.
Al fregar el pavimento donde se encuentra la alfombra, debe tener cuidado de dejar secar bien antes de volver a poner la alfombra sobre el pavimento limpiado, para evitar que aparezcan humedades y evitar que el forro se despegue de la alfombra.
La alfombra deberá ser guardada en una superficie plana, debidamente enrollada y con una funda por fuera, debiéndose añadir un producto antipolilla (ej.: Naftalina) en el caso de ser una alfombra de lana.

LIMPIEZA

Aspirar semanalmente (recomendamos: 2 veces), siempre en el sentido a favor del pelo, ya que en caso contrario, podría reducir el brillo de la alfombra.
Nunca sacuda la alfombra, porque podría romper la estructura (trama) que sustenta la alfombra, pudiendo provocar roturas o deformaciones con el paso del tiempo.
Es fundamental prestar atención al tipo de fibra que compone la alfombra y seguir siempre las instrucciones de lavado especificadas en la etiqueta.

Es aconsejable hacer una limpieza profesional 1 vez al año.

QUITAR MANCHAS

Si se ataja de inmediato, tiene cerca del 90% de probabilidades de conseguir quitar la mancha. Para esto deberá seguir los siguientes pasos:
1º atajar de inmediato y remover los restos sólidos con la ayuda de un cuchillo y en el caso de los líquidos absorberlos con en papel, esponja o trapo muy absorbente.
2º trabajar de fuera hacía adentro, para restringir la mancha.
3º no mojar demasiado la alfombra, pues puede dañarla irremediablemente.
4ºNo frote en el lugar de la mancha.
Debe utilizar un detergente propio para alfombras y con un PH neutro.

EN

MAINTENANCE

The rugs at an early stage will tend to release some pile, especially those having wool on their composition. These cases should aspire with some frequency, especially in the first 2 months.
It is also usual to appear small yarns to the surface of the rug, and to fix this problem they must be cut and never pulled, as doing so may damage your rug. This is normal to happen and does not reduce the quality or durability of the rug.
To prolong the life of your rug, it is recommended that the rug be rotated in 6 of 6 six months to change the traffic patterns and evenly distribute the wear on the sides;
Avoid exposing the rug to light or intense heat thus preventing the appearance of blemishes;
When you washing the floor where the rug should be careful to let it dry properly, to avoid the appearance of mold and peel off the lining of the rug;
The rug should be stored flat or rolled with the liner out, having to join an anti-moth (eg naphthalene) in the case of a rug in wool;

CLEANING

Vacuum weekly (recommended: 2 times) when in the course of, as otherwise, this procedure can reduce the brightness of the rug.
Never hit the rug, because it can break the structure (wrap) that holds the rug, which can cause tears or deformations over time;
It is essential to pay attention to the type of fiber that make up the rug and always follow the washing instructions specified on the label;

It is advisable to use a professional cleaning every year.

STAIN REMOVAL

If you act immediately, is about 90% likely to be able to remove the stain.
For this you should follow these steps:
1º Act immediately and remove solids with the aid of a knife or in the case of liquid absorbs them with paper, cloth or sponge very absorbent;
2º Working from the outside in, to restrict the stain;
3º Do not wet the rug too, because it can damage it irreparably;
4º Do not rub the site of the stain.
Must use a detergent suitable for rugs and with a PH Neutral.
